of Correction**

Sir:

Please find attached a proposed Certificate of Correction.

Please correct the following errors appearing in the printed patent, which are the fault of the U.S. Patent and Trademark Office, as per the attached Certificate of Correction. Since these errors are the fault of the USPTO, no fee is due.

On the cover of the printed patent, at Item (56), References Cited, the following U. S. Patent Publications and Foreign Patent Documents were omitted and should be included:

---2002/0014086	02/07/02	Holzer et al.---
---2003/0029189	02/13/03	Wilson---
---2338287	12/15/99	United Kingdom---
---19933603	01/08/01	Germany---

P23876.A20

The U.K. and the German references appeared correctly on the Form PTO-1449 considered by the Examiner on June 16, 2005, which was attached to the Office Action mailed June 24, 2005. Additionally, the U. S. Patent Publications were listed on the same Form PTO-1449, but were improperly crossed off the Form by the Examiner, who indicated they were "not considered because the numbers are incorrect." Applicants respectfully submit that the numbers are correct, including the dates of publication, although the leading zero after the backslash in each number was omitted. These documents were listed as having been cited on the European Search Report submitted along with the Information Disclosure Statement in which they were cited, which European Search Report having omitted the leading zeros. Although it is believed that the missing leading zeros can simply be added to the Form PTO-1449 of record, for the convenience of the U. S. Patent and Trademark Office, Applicants are providing a new Form PTO-1449 listing the U.S. Patent Publications with their leading zeros.

Therefore, it is respectfully requested that a Certificate of Correction issue in the above-identified patent as follows:

On the cover of the printed patent, at Item (56), References Cited, the following U.S. Patent Publications and Foreign Patent Documents were omitted and should be included:

---2002/0014086	02/07/02	Holzer et al.---
